Focus on practice, not only on theory

At Advisera, our mission is to make complex frameworks easy to understand and simple to use. This is why we focus on ease of learning and on the practical aspects of what you learn.

This is why this course combines practical information with an interactive workshop, guided by an Advisera expert, to help you practice the concepts necessary for implementing ISO 27001.

How does the course & certification work?

What you'll learn

Part 1: ISO 27001 Foundations

- **Module 1 - Introduction to ISO 27001:** Understand the standard, the ISMS, its requirements, benefits, and implementation.
- **Module 2 - The Planning Phase:** Learn how to plan an ISMS, including its scope, objectives, roles, resources, and documentation.
- **Module 3 - Risk Management:** Understand information security risk assessment, risk treatment, the Statement of Applicability, and the risk treatment plan.
- **Module 4 - The Do Phase:** Learn how to implement the risk treatment plan and operate the ISMS.
- **Module 5 - The Check and Act Phases:** Learn how to monitor, audit, review, correct, and continually improve the ISMS.
- **Module 6 - Overview of Annex A:** Explore the people, physical, technological, and organizational controls in ISO 27001.

Part 2: Implementation

- **Module 7 - Getting the Project Approved:** Learn how to gain top-management support, present the project, and prepare proposals.
- **Module 8 - Prepare for the Implementation:** Define project scope, stages, roles, resources, communication, documentation, and the project plan.
- **Module 9 - Implementation of a Management System:** Learn how to execute project work, manage assignments and resources, introduce changes, and overcome resistance.
- **Module 10 - Monitor, Control, and Complete the Project:** Learn how to verify and report project status, communicate progress, conduct monitoring and control meetings, perform internal audits and management reviews, and complete project acceptance and implementation closure.
- **Module 11 - Taking the Organization for Certification:** Learn how to prepare the organization for certification, select a certification body, understand the certification process and Stage 1 and Stage 2 audits, organize audit logistics, prepare employees, understand what to expect from auditors, and manage post-audit activities.
- **Module 12 - Maintaining the Certification:** Learn how to maintain certification, improve and update the management system, ensure continued top-management leadership, prepare for surveillance audits, and manage activities between certification and the next surveillance audit.

What our students say

More than 12,000 students have attended the ISO 27001 Lead Implementer course.

★★★★★

"I've been eyeing the ISO 27001 Lead Implementer cert for a while and finally did the online version. Surprisingly good! The material was actually practical rather than just dry theory, and the platform was easy to navigate. If you're looking to get certified without sitting in a classroom for a week, this is a great shout. Overall, a really smooth experience."

— Darius, ISO 27001 Lead Implementer Course

★★★★★

"This Course makes ISO 27001 implementation easy, as it makes each step simple. It has a Good list of additional documents for reference."

— Niclas, ISO 27001 Lead Implementer Course

★★★★★

"A well-structured and insightful journey, this course gave me a solid foundation, built my confidence, and introduced real-world skills I can now apply with clarity. Perfect for anyone starting out"

— Raid, ISO 27001 Lead Implementer Course

Which ISO 27001 course is right for you?
