Focus on practice, not only on theory

At Advisera, our mission is to make complex frameworks easy to understand and simple to use. This is why we focus on ease of learning and on the practical aspects of what you learn.

This is why this course combines practical information with an interactive workshop, guided by an Advisera expert, to help you practice the concepts necessary for auditing ISO 42001.

How does the course & certification work?

What you'll learn

Part 1: ISO 42001 Foundations

- **Module 1 - Introduction to ISO 42001:** Understand the standard, AIMS, implementation, documentation, benefits, related standards, and core AI concepts.
- **Module 2 - The Planning Phase:** Learn context, interested parties, AIMS scope, leadership, AI policy, roles, resources, competence, communication, and documented information.
- **Module 3 - Risk Management, Impact Assessment, Objectives, and Changes:** Learn AI risk management, impact assessment, objectives, risk treatment, the Statement of Applicability, and planning changes.
- **Module 4 - Implementation & Operation of the AIMS:** Understand operational planning and control, AI risk assessment and treatment, AI system impact assessment, and integration with other ISO standards.
- **Module 5 - Monitoring, Review, & Improvement:** Learn monitoring and evaluation, internal audit, management review, improvement, nonconformities, and corrective actions.
- **Module 6 - Overview of Annexes A and B:** Understand AI policies, organization, resources, impacts, development, data and use of AI systems, and third-party relationships.

Part 2: Certification Audits

- **Module 7 - Auditing Basics:** Learn core auditing techniques, including evidence gathering, sampling, interviews, findings, and audit reporting.
- **Module 8 - Understanding Auditing Standards:** Understand ISO 19011, ISO 17021-1, certification, accreditation, and auditing principles.
- **Module 9 - Understanding Audit Roles and Responsibilities:** Understand the responsibilities of the Lead Auditor, audit team, client, auditee, and other audit participants.
- **Module 10 - Planning the Audits:** Learn how to define audit objectives, scope, methods, team, resources, risks, and audit plans.
- **Module 11 - Managing the Audit Process:** Practice opening meetings, site visits, interviews, evidence requests, debriefing, and conflict management.
- **Module 12 - Managing Your Audit Team:** Learn how to communicate with, coordinate, monitor, and manage an audit team effectively.
- **Module 13 - Completing a Successful Audit:** Learn how to evaluate findings, reach conclusions, conduct the closing meeting, write the audit report, and complete post-audit activities.
